- Highly sensitive microphone
- Automatic level control (ALC)
- Customer-selectable crystal controlled channels
- Compatible with all SpectraTek receivers and repeaters
- Carrying case included
- Selectable "Scrambled" or "Clear" voice capability (Optional)
- Voice-Activated (VOX) Circuit (Optional)
- CTCSS Signaling (Optional)

### Description

Frequency Range	150–174 MHz - VHF High Band
RF Power Output	1.25 watt minimum @ 50 ohms
Modulation	Narrowband FM
Number of Channels	(1) Crystal controlled (optional second crystal)
Frequency Deviation	± 5 kHz maximum (16F3)
Frequency Stability	± 10 ppm of authorized frequency
Spurious & Harmonics	Better than -46 dBc
Microphone	locking external electret (included)
Antenna	locking external, flexible wire (included)
Power Sources	(2) 9-volt alkaline batteries (included)
Operating Time	3 hours minimum
Operating Temperature	-10°C to +65°C
Dimensions	4" L x 2.3" W x 0.8" D (10.2 x 5.8 x 2.0 cm)

FCC ID #FLC200020

For sale to government and law enforcement agencies.
